

TRUE WATER SOLUTIONS
**COMMUNITY
GIVEAWAY**

True Water Solutions is seeking nominations for a new annual initiative recognising the valuable contribution that not-for-profit organisations make to our community.

True Water Solutions, in partnership with industry leaders Fuji Clean, Water Gurus and Toro, is donating a wastewater treatment system to the value of \$15,000 to a needy community group.

This state of the art treatment system will be donated inclusive of design, approvals, freight and installation.

By donating our products and services for this critical infrastructure, we aim to help charity and not-for-profit organisations continue to serve the North Coast community, protect our environment, increase community awareness and emphasise the importance of wastewater treatment in keeping the Northern Rivers beautiful.
